Eileen, thanks for the email. The reason that I was trying to make contact is that the City had heard that the DEQ or EPA had a public comment period open on some type of work plan for the Wolverine site and that the comment period closed today. I have since been able to talk with Joe Walczak and he said that there is not a current public comment period for a work plan. What is going on is that Joe has his quarterly report due soon to EPA and he needs to include a status report for the Wolverine site since it is an OCA site. I have provided information to Joe to include in his report concerning our current field work and a new supplemental work plan that we submitted this week to DEQ for approval. There now is no need for me to talk with Nuria or Tom about this since I now understand the situation. If you have any questions for me, please let me know.

Mike

Michael and Nuria,

Tom is likely out until at least Thursday – his mother is gravely ill. If you need immediate help, please give me a call.

Eileen

Hi Mike:

I forwarded your call to Tom Williams. I believe he should be back on Wednesday.
